I applaud the effort to relieve Freight Train congestion around the Chicago Switching district and the opportunity to comment in the movement of trains. Restrict the Length to 4800 ft and make ~~for~~ sure the main line is clear to the next siding which must be long enough to hold the train before releasing the train for operation into that line segment.

Insist upon this restriction and include oversite and penalty for violation.

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.

YOUR INPUT IS IMPORTANT!

Comments provided by the public help determine the scope of the environmental review.
